COASTAL CYANOTYPES

Price: £200 framed
Details: Size: 75cms x 50cms
Edition of 1: each is unique
White wood frame

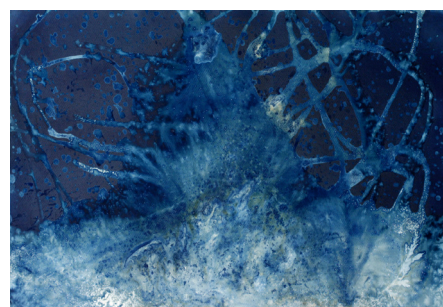

These images form part of ***Beyond the Surface***, an ongoing project that creates an impression of our coastal environment capturing its formation, the beauty of the sea but also its potentially destructive nature. By using the wet cyanotype process, it is possible to interact with the environment in a very physical way to record abstract and unpredictable impressions of the natural and watery world of our coastline. Each image is unique and specific to the moment and place in which it was made.
